

Echo Paints is a complete set of modern protective and decorative items specially designed to fit all constructive and preservative requirements.

Echo Paints is excellent in its quality, its ability to cover what is underneath, and its unchangeable colors as well as its resistance towards acids, bases, humidity, oxidation and color change.

Echo Paints colors are precisely selected to be distinguished with their purity, their perseverance and their conveniarace with the demands to which they were designed.

Echo Paints can be applied using the paint brush, the air brush or the roller.
